January 1, 2021

Happy New Year! We hope this letter finds you and your family in good health.

Our office is open for all dental procedures, including routine dental exams and cleanings which are essential for your oral health.

We are committed to your oral care and your safety, with infection control always being a top priority. We follow infection control recommendations of the American Dental Association (ADA), the U.S. Centers for Disease Control and Prevention (CDC), and the Occupational Safety and Health Administration (OSHA). We monitor the activities of these agencies to stay current with any new guidelines or rulings.

The following safety controls on top of our normal procedures were added in 2020 to ensure the safety of our patients and staff:

- Our office communicates with you beforehand to ask screening questions. You will be asked those same questions again when you arrive at our office.
- Please wear a facemask when entering our office.
- Your temperature will be taken when you enter our office.
- We have hand sanitizer that we will ask you to use when you enter our office.
- We have each patient pre rinse with a 1.5% Hydrogen Peroxide solution in order to significantly reduce the bacteria, viruses, fungi, and the disruption of the biofilm that is present in the mouth.
- Common spaces and surfaces are disinfected regularly throughout the day. This includes counters, chairs, door handles, switches, etc.
- Appointments will be managed to allow for social distancing between patients.
- We are allowing greater time between patients to reduce waiting times for you, as well as to reduce the number of patients in our office at any one time.
- We have installed four Medify Medical Grade Filtration H13 True HEPA units with one in each of the operatories and at the front desk.
- Our staff is screened daily and their temperatures are taken daily.
- Our staff is equipped with the proper Personal Protective Equipment (PPE) in order to protect you, our staff and other patients that will be treated that day.

Call our office at (847) 358-3134 to schedule your appointment. We are accepting new patients. Visit www.franciscandredds.com and follow us on Facebook, Instagram and/or Twitter for our office details.

We are happy to answer any questions you may have about the steps we take to keep you safe while in our office. We value your trust and look forward to seeing you soon.

Sincerely,

Dr. Francis Candre and Staff
